SUMMARY

Motivated AWS builder. Ready to earn clearance, contribute to mission-driven infrastructure, and learn alongside sharp engineers.

PROJECT

[COSMOS GovCloud Architecture \(2025\)](#) | Independent Project (modeled after SBS mission app architecture)

github.com/serversorcerer/aws-govcloud-cosmos-project, June 2025

- Designed and deployed a **3-tier AWS network architecture** (Dev, Shared, Prod) using CloudFormation — simulates SBS GovCloud environment.
- Configured centralized routing via **AWS Transit Gateway** and a single **TGW Route Table**, reducing complexity across 3+ VPCs.
- Attached and propagated subnets with **least-privilege policy scope**, following DoD-aligned security best practices.
- Authored a **deployment script** and visual documentation to replicate the full stack in <10 minutes.
- Built and shipped project in under 7 hours, demonstrating fast ramp-up on real-world infrastructure tooling.

[Cloud Resume Terminal \(Live AWS Infrastructure\)](#) | josephaletio.io

josephaletio.io/, November 2024 - Present

- Built an interactive terminal UI where every typed command triggers real AWS Lambda functions.
- Connected S3, API Gateway, Lambda, and DynamoDB to support **20+ live commands** with real backend logic.
- Deployed terminal commands: resume, view counter, and architecture — tested over **500+ executions** with 100% success rate.
- Provisioned infrastructure using Terraform and automated deployments via GitHub Actions — **0 manual steps** post-setup.
- Added offer command that lets recruiters send interest directly to joe@josephaletio.io — live Lambda → Zapier → inbox in under **2 seconds**.
- Delivered a fully serverless, zero-maintenance resume experience that showcases end-to-end AWS fluency.

[Neurodivergent Classroom Scheduler \(2025\)](#) | Independent Project (built for Jacob Levy — Neurodivergent Career Coach)

github.com/serversorcerer/cloud-resume-challenge/blob/main/website/Classroom%20Scheduler%20Readme.pdf

- Built a classroom scheduler in Google Sheets using Apps Script — reduced manual scheduling by **90%**.
 - Handled **80+ weekly bookings** across **20 classrooms** with automatic conflict detection and daily archiving.
 - Designed for neurodivergent learners — improved clarity and consistency across **4 classrooms**.
 - Fully automated system — required **0 manual updates** after launch.
-

SKILLS

AWS CloudFormation – Deployed multi-VPC GovCloud architecture using modular CloudFormation stacks (VPC, TGW, Attachments, Route Tables).

Terraform – Built fully codified S3-hosted resume site; managed all infrastructure as code with modular, versioned Terraform.

CI/CD (GitHub Actions) – Automated deployments for both static and dynamic infrastructure, including Lambda and S3 via GitHub Actions.

AWS Lambda + API Gateway – Developed Lambda functions powering terminal commands, contact forms, and live backend logic.

AWS S3 + CloudFront – Delivered production-ready portfolio and resume with secure, high-availability static hosting.

AWS DynamoDB – Integrated serverless key-value store to track view counters and support terminal queries.

AWS IAM – Used least-privilege roles for Lambda execution, API access, and infrastructure security.

AWS VPC + Transit Gateway – Created a full 3-tier GovCloud-style network layout with routing and propagation.

CERTIFICATIONS

AWS Certified Cloud Practitioner | Amazon Web Services Training and Certification

2023

EXPERIENCE

Poker Dealer | Rivers Casino

March 2025 - Present, Portsmouth, VA

- Dealt high-action **NLH and PLO** cash games at \$2/\$5 and \$5/\$10 stakes.
- Managed tables with **8–10 players**, averaging **30+ hands per hour**.
- Handled **\$10K–\$30K+ in table chips** nightly while maintaining game integrity.

Poker Dealer | MGM National Harbor

March 2023 - Present, Oxon Hill, MD

- Dealt high-stakes poker games with strict adherence to Maryland gaming regulations across 45+ tables.
 - Managed tournament flows, averaging 20 events per month while ensuring fair play and pace of action.
 - Delivered exceptional patron service in high-pressure scenarios.
-
